

EMSP 1501.01 EMT-Basic

"Northeast Texas Community College exists to provide responsible, exemplary learning opportunities."

Deborah R. Grantham, BS, MPA, LP,
Adv. EMS Coordinator / EMS Program Director

Office: UHS 211

Phone: 903/434-8320

Email: dgrantham@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	3PM-5PM	2PM-5PM	3PM-5PM	2PM-5PM	None	8AM-8PM

The information contained in this syllabus is subject to change without notice. Students are well informed at the beginning of the course and are expected to be aware of any additional course policies presented by the Instructor during the entire course.

Catalog Course Description (including prerequisites):

EMSP 1501 – EMT-Basic

5 credit hours.

Lecture/Lab/Clinical: Five hours lecture and four hours lab each week. Clinical hours are obtained in clinical portion of course (EMSP 1164). However, BOTH sections must be passed during the same semester or BOTH sections must be repeated.

Prerequisite Suggested: Current American Heart Association Health Care Provider course completion. No other type of CPR credentialing accepted. AHA CPR training provided within the course.

Licensing/Certification Agency: The National Registry of EMT's (testing agency) and the Texas Department of State Health Services (TDSHS).

Course Description: Introduction to EMS at the level of Emergency Medical Technician (EMT) - Basic. Includes all the knowledge and skills necessary to provide emergency medical care at a basic life support level with an ambulance service or other specialized services.

Course Availability: Fall (day class only), Spring (night & day class), Summer (if available, day only)

Note: Additional course fees required. Uniforms required. Course P & P Packet required.

Required Textbooks:

Emergency Care and Transportation of the Sick and Injured (Book & Navigate 2 Essentials Access) – 11th Edition

Emergency Care and Transportation of the Sick and Injured Workbook -- 11th Edition

Author / Publisher:

American Academy of Orthopedic Surgeons (AAOS) / Jones & Bartlett Publishers

ISBN Numbers:

ISBN-13: 978-1284080179

Student Learning Outcomes:

1. Apply operational principles in out-of-hospital environments; demonstrate lifesaving care to patients at the Emergency Medical Technician (EMT) level
2. Apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with EMS practices.
3. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.
4. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using acceptable EMS practices.
5. Display professional and ethical behaviors expected of emergency personnel.

Exemplary Educational Objectives:

N/A

SCANS Skills:

N/A

SPECIAL NOTE: PRIVILEGE TO PRACTICE

Students are granted a privilege to learn and subsequently apply such knowledge into practice by the EMSP Program Medical Director as an extension of his medical license under the terms of the Medical Practices Act and rules through the Texas State Board of Medical Examiners. At any point within the EMS Program (in class, lab, or clinical) that the Medical Director loses confidence in the student's academic, psychomotor, or affective abilities (including such things – but not limited to – such things as integrity, safety, and/or professionalism), the student may be PERMANENTLY removed from this program.

Student Responsibilities/Expectations:

Success in the NTCC EMS Program is directly related to ACTIVE classroom, lab, and clinical/field attendance and participation. **Essential** to this success, you should do the FOLLOWING:

- 1) Always be AT LEAST 5 minutes early for class, lab, clinical or field experiences.
- 2) Never be late for class, lab, clinical or field experiences. And, **DO NOT** return late from break or lunch.
- 3) Get involved and participate in directed learning. This kind of learning is **NOT** a spectator sport.
- 4) Use all of the tools in your toolbox that we teach and show us you can learn, grow, and **ADAPT**.
- 5) Did we mention.....**DON'T BE LATE?**

- 6) Ask questions. The only dumb question is the one that isn't asked at all.
- 7) Well researched debate is encouraged. Arguing with the Instructors is prohibited. You are the student, ...they are the EXPERIENCED, LICENSED, & DEGREED Professionals. No matter HOW LONG you think you've done this.....you ARE NOT their superior in knowledge or experience. If you were..... you would not be in these classes. If you refuse to give up, you will need see the Program Director.
- 8) No matter how you learned it before or how you might have done it before, you **WILL** do the course as it is designed without resistance.....or you can exit. We strive for the highest standards of excellence and not old ways, traditionalism, mediocrity, excuses, and laziness. If you cannot conform to our standards that are designed for this program, then you need to find another career. EMS is not for you.
- 9) **Respect is EARNED**. If you show it and give it, you are most likely to receive it. But if you don't show it/give it.....you will be dismissed from the program.
- 10) Follow the Chain of Command. Period. If you end-run your Instructor or the Program Director, you could be ending your time in this program.
- 11) Learning never ends.....not even when the class is over. Share what you have learned. Once you master something, teaching it makes you learn it better.
- 12) You are going to be a part of the worst day of a person's life. Be courteous, open-minded, compassionate, understanding, and make a positive difference. Don't be just a warm body occupying space "just doing a job" or "just doing what I gotta do to make a paycheck".

Student Dress Code Policy:

Students of the EMT-B program are REQUIRED to attend class, lab, and clinical rotations in full designated uniforms....AND AS PRESCRIBED. No "deviations" are allowed. There is no place for "creative and/or inspirational individuality" when the public we serve expects professional AT ALL TIMES. That mean LOOKING the part at all times. This helps gain our patient's trust and confidence. All of the sites in which clinicals are performed also have stricter policies regarding personal appearance and hygiene for the same reasons. As such, professionalism, personal appearance and hygiene are also a graded requirement in the EMS classroom, lab and clinical.

EVALUATION/GRADING POLICY FOR CLASSROOM & LAB:

Specific course requirements and grade calculation will be distributed at the beginning of each semester of learning via the Student Policy & Procedure Manual. In sections listed below, students must receive a letter grade at least in the 'C' range (and NOT your standard "C"), to be considered successful completion.

A grade at or above the MINIMUM PASSING SCORE MUST be earned on ALL major exams. If a student fails an Exam, he/she could be REQUIRED to take a secondary exam on that subscale within ONE WEEK, but OUTSIDE regular class hours. The re-taken test score WILL NOT replace the failure score, but WILL BE averaged with the previous score. The combined score WOULD represent a passing score at this point. If the student scores below the passing score at this point, he/she will be placed on **ACADEMIC PROBATION** until the next subscale exam. If the student fails the next subscale exam as well, his/her Academic Probation will be UPGRADED to an OFFICIAL ACADEMIC WARNING, which will put the student at risk for course failure for ANY further failing Cognitive Domain grades. At the end of the course, the student will take a Final Exam. The Final Exam will count 20% of the student's entire grade. The grade on that Exam MUST be **75%** or higher (the national standard for EMT achievement in testing). If the student does not achieve the cut score on the Final Exam BUT has a passing grade in the course, one re-attempt will be offered ONLY after REQUIRED remediation. Refusal to do the prescribed remediation will result in an "F" being documented as the grade, thus resulting in failure of the course. When/If the student does re-attempt the finals, the resulting re-exam grades will be averaged with the previous grade to give the number that will be the final exam grade, which still MUST average above the **75%** cut score.

Calculation of the Course final grade comes from the following:

Major Exams / Research Project	-- 30%
Quizzes / Homework / Extra Credit	-- 20%
Affective & Psychomotor Domain	-- 30%
Final Exam	-- 20%

The grading scale for ALL EMT- Basic course(s) is/are:

90 to 100 -- A 80 to 89 -- B 75 to 79 -- C 74 to 66 -- D Below 65 -- F

After ALL work has been completed, the students at ALL LEVELS of the program MUST have a final average of **75%** or better to receive a Course Completion Certificate which is needed to test for the National Registry to become certified in their field of discipline.

****Please NOTE:** Late work is NOT ACCEPTABLE and the attempt to “offer” extra or substitute work for missing or late work for grade or extra credit is not acceptable. If the student wants a passing grade in the EMS Program, advice is to do the work and turn it in on time.....PERIOD.

Classroom Section -- Skills, Quizzes, Exams, Homework, & Projects + AFFECTIVE:

Any quizzes/major exams MUST be taken during the scheduled and allotted time. IF circumstances require missing a quiz/exam, the **STUDENT** must make arrangements with the Instructor to take a make-up test by the NEXT assigned day the student will return to class. Failure to complete the makeup test as the Student & Instructor arranges to do, or if the STUDENT fails to arrange a makeup, the Student will earn a grade of zero (0) on the quiz/exam. Makeup tests WILL NOT BE GIVEN WITHOUT AN APPOINTMENT. Homework and student projects are designed to enhance the student’s learning experience and are aligned with the topic at the time. Such assignments and projects are never given last minute, so the student has time to adequately complete the assigned tasks and turn the item in ON TIME. It will be the student’s fault for a lack of preparation and/or time management if the item is not complete and/or returned in a timely manner. Please DO NOT ASK for extensions OR offer another project in lieu of an assigned project as it will not be granted and the student will earn a ZERO. Also, there is minimal extra credit given, so do NOT rely on “extra points” pulling you through, and definitely NOT at the end of the course.

Lab Section -- Practice / Skills Testing + AFFECTIVE:

Grading for lab practice is given for the student’s ACTIVE participation in time allotted for skill mastery. Students who are observed wasting this time, will most likely fail skills testing more often, so the resulting participation grade is established accordingly. Skills testing to the Instructors and Examiners is VERY serious business because it truly indicates a student’s potential ability to perform in the field. First and foremost, student skills testing is mostly conducted PRIVATELY to minimize distractions and lower inhibitions/anxiety. Students will be given a MAXIMUM of 3 opportunities to pass a skills test; after the first failure, the student WILL NOT be allowed to immediately test.....they MUST leave the room, wait AT LEAST through 3 other tests BEFORE being allowed to re-enter and attempt the skill again. The second skill test will NOT be a repeat of the previous test as it will be modified to make sure the student is not “mimicking” previous behaviors/routines and thus truly understands how to successfully accomplish the skill. A student who fails a skill the second time MUST undergo MANDATORY remediation prior to being allowed to test the skill a third/final time. If a student fails a skill the third time, the student will be dismissed from the course. Students should be aware that IF they miss an ASSIGNED skill testing session, it will count AS A FAILURE of the skill. Make-up skills testing and re-tests outside of the normal assigned classroom/lab times will be done BY APPOINTMENT ONLY.

Affective Domain:

Measures the student's attitudes, behaviors, and professional attributes, as well as classroom conduct. To pass means appropriate classroom behavior (e.g. doing required work, not sleeping, no side-bar/excessive talking, not arguing/being disrespectful to the Instructor), professional ethics (being on time [including from breaks], having ALL work ready at the START of class AND COMPLETE), and adherence to policy (e.g. being in uniform AS PRESCRIBED, personal hygiene to standards). Breaches in the Affective Domain will result in the Student getting a verbal warning to start. Afterwards, a student conference where a written warning will be issued. A short time period for improvement will be given before assigning a failing grade for Affective which means the student has failed the course. However, in cases where the behavior is significantly unacceptable, egregious, or poses a threat to the well-being of others, immediate suspension of the Student and a posting of a failing grade may be immediate and without the normal warning procedures.

Tests/Exams:

See schedule below

Assignments:

See schedule below

Course Completion Policy

A student is considered to have successfully completed a course when ALL classroom affective, cognitive, and psychomotor domain objectives as well as all clinical domain objectives and competencies have been successfully completed according to program criteria as set forth in both the General and Clinical Policy & Procedures Manuals. Upon completion of the course, the Course Instructor and Program Director will re-verify all required documents in the student's file. Upon re-verification, if all documents are in place, complete, and correct, the student will receive an official course completion certificate. This certificate is individually numbered and can be cross referenced to the student by both the program AND the State of Texas. Upon completion, an exit interview will also be conducted with the student. The student should understand that failure of any part of the didactic OR clinical portion of the program constitutes the failure of the ENTIRE COURSE, and hence the student would be required to complete **BOTH** portions again if re-application is made and accepted.

Withdrawing / Returning Students Policy

Instructors will not drop a student from a class for general reasons, including just having the student quit coming to class. It is the STUDENT'S responsibility to withdraw from their courses to receive a grade of "W" BEFORE the college-mandated drop date or they will have an "F" automatically registered for the course, even if they had a passing grade prior to the drop date. Students who quit coming to class for any reason and do not withdraw will simply receive an "F" for the course. The only way students can erase an "F" from their transcript is to repeat the course and successfully pass it. Otherwise, it remains permanently on the transcript. For students on scholarships and financial aid, an "F" on your transcript will likely cause a loss of funding. Therefore, students should be very attentive about their status as a student at all times. Students choosing to leave the program are advised to contact their Instructor or the Program Director for an exit interview prior to withdrawing to avoid receiving a failing grade. The purpose of the exit interview is to establish any requirements for the student to possibly return to the program at a later date. The student must understand that withdrawal from the program is THEIR responsibility, not the Instructor's. However, the student can be DISMISSED from the program by the Instructor or Program Director for reasons already defined or reviewed below. Dismissal is under the jurisdiction of Instructors and the Program Director.

SPECIAL NOTICE: STUDENTS DISMISSED FROM THE PROGRAM

A student can be dismissed from the NTCC EMS Program for such occurrences (but not limited to); fraudulent behavior (including falsification of clinical documents); violent behavior; drug use or failure of program drug testing; outside the program criminal violations; doing clinical rotations WITHOUT prior NTCC EMS Program Director's authorization (includes going to wrong/unauthorized locations or times); student dismissal from 1 or more clinical site; flagrant social media violations; excessive absenteeism and/or tardiness; insubordination whether in the class/lab or clinical sites; or consistent failure to follow course or clinical policies after being given previous corrections without improvements. Students dismissed from the program from any of the above or possibly other violations are generally NOT subject for re-admittance to the EMS Program. Students of somewhat lower infractions MIGHT have an opportunity to appeal for re-admittance, but there is NO GUARANTEE of approval. Students requesting a second chance will be handled on a case-by-case basis BUT ONLY for minor dismissal infractions. HOWEVER, IF a student were re-admitted, CONTRACTUAL safeguards will be put in place that the student **MUST** comply with or BE DISMISSED PERMANENTLY. Please note: students who are certified or licensed with the state must know that upon dismissal, the NTCC EMS Program is required to notify TDSHS of the student's dismissal, which may affect their professional certifications / licenses.

NTCC ACADEMIC HONESTY STATEMENT:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

ACADEMIC ETHICS

NTCC expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA STATEMENT:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College counselor to obtain a Request for Accommodations form. For more info, please refer to the NTCC Catalog or Student Handbook.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Dept. of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he/she attends school beyond the high school level. Students to whom rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without written consent of the student. Complying with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address/local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Northeast Texas Community College
FALL EMT-Basic COURSE SCHEDULE *(updated)*
August 27, 2019 – December 11, 2019 (Tuesdays & Thursdays)
Day Class --- 8:30am -- 1:00pm

<u>DATE</u>	<u>TOPIC</u>	<u>CHAPT ER</u>
August 27	<p>ADMIN: Accept any incoming student documents; Go over class roster; Pass out required forms & student check-list – Review; Get to know your Classmates/Instructor; Review uniform orders/concerns Review of P & P / Course Requirements; Introduction to course</p> <p>LAB: DEMO / Practice Vital Signs – Pulse / Respirations</p> <p>REVIEW: Review reading assignment for Thurs (Ch. 1 & 2)</p> <p><i>Get head-count of students who will attend CPR class on the 7th of September</i></p> <p>Give info @ <u>NIMS ASSIGNMENT</u> (assignment MANDATORY & 1st 2 sections are due at <u>LAST THURSDAY</u> class of SEPTEMBER and the last 2 sections are due the <u>LAST THURSDAY</u> class in OCTOBER. Will count as <u>major EXAM</u> grade)</p>	<p>Syllabus Handouts</p> <p>NIMS: 100/200 = 9/26/19; 700/800 = 10/31/19</p>
August 29	<p>ADMIN: Accept any student documents; Take pictures for student ID's</p> <p>LECTURE: Intro to EMS / EMS Systems; Workforce Safety & Wellness; Death & Dying Philosophies</p> <p>VIDEOS: Lecture supported material (as time allows)</p> <p>LAB: Practice Vital Signs – Pulse / Respirations; DEMO Pulse Oximetry</p> <p>LAB ASSIGNMENT: 10 different patients (outside of class) 1st round of VS</p> <p>REVIEW: Review reading assignment for next Tues (Ch. 3,4,5) Next week's agenda / Reminders</p> <p>Give Assignment #1 (Medical Terminology) -- Due NEXT CLASS!</p>	<p>Ch. 1 Ch. 2 Handouts</p>
Sept. 3	<p>FIRST DAY for Partial Uniform Check (pants, belt, boots/shoes, grooming)</p> <p>ADMIN: Accept any student documents for files; Brief Overview of Medical Terminology Homework</p> <p>Turn in Assignment #1 + LAB Assignment -- Late work NOT accepted!</p> <p>QUIZ #1 -- Ch. 1, 2, & Syllabus (timed: 20 minutes MAX)</p> <p>LECTURE: Short Review of Quiz #1 Medical & Legal Issues; Brief Review of Comms./Doc. & Med. Term. Review reading assignment for Thurs (Ch. 6)</p> <p>LAB: DEMO / Practice Blood Pressure (palpation/auscultation) Cont. Practice Vital Signs – Pulse, Respirations, & Pulse Oximetry; In-LAB assignment; Review Skill Check-off Sheets and Skill Check Format</p> <p>REVIEW: Next class agenda / Reminders</p> <p>1st EXTRA CREDIT: Complete Review sheets for Ch. 3-5: Due Next TUESDAY</p> <p>SEE MANDATORY EXTENSION OF CLASS</p>	<p>Ch. 3 Ch. 4 Ch. 5 Handouts</p>

	FOR CLINICAL TRAINING ON NEXT PAGE	
Sept. 3 1:00p –	FIRST CLINICAL CLASS ALL students are required to attend this portion of their class of EMSP 1164 (EMS Practicum). This course will meet every 2-3 weeks. Please pay attention to ALL entries that are highlighted in YELLOW & attend as REQUIRED!	
Sept. 5	ADMIN: Accept any student documents; Partial Uniform Check LECTURE: The Human Body VIDEO: Lecture Supported Material REVIEW: This Saturday's CPR Class / Next week's agenda / Reminders 1st EXTRA CREDIT Due NEXT CLASS; No late work accepted! FIRST Workbook Check (Ch. 1-6) NEXT CLASS; No late work accepted!	Ch. 6
SAT. Sept. 7 9am – 2pm	SPECIAL CLASS SESSION: AHA CPR Class for students who <u>don't already have</u> CURRENT CPR cards. Students who don't attend will be responsible for having completed course on own at their OWN COST NO LATER THAN SEPT. 17th! CPR Certification is MANDATORY & REQUIRED for course completion.	Must be Signed Up Prior to Attending
Sept. 10	TURN IN Workbooks (Ch.1-6) as you come INTO class.....NOT LATER! TURN IN 1st EXTRA CREDIT (Ch.3-5 Review)as you come into class! 1st Class for COMPLETE UNIFORM COMPLIANCE CHECK ADMIN: Accept any student documents QUIZ #2 -- Ch. 4, 5, & 6 (timed: 20 minutes MAX) LECTURE: Short Review of Quiz #2 Brief Overview of Life Span Development LAB: Cont. Practice on Vital Signs – Pulse, Respiration, & Blood Pressure (both); DEMO/Practice OPA/NPA/Suctioning & O2 Tank Assembly REVIEW: Review reading assignment for Thurs (Ch. 8 & 9) Next class agenda / Reminders PICK UP WORKBOOKS PRIOR TO leaving class	Ch. 7
Sept. 12	ADMIN: Accept any student documents LECTURE: Brief Overview of Positioning, Lifting & Moving Patients; Patient Assessment – Scene Size-Up thru Reassessment LAB: Lifting & Moving Patients on various equipment in various situations; DEMO Final Mech. Aids & cont. practice other Mech. Aids + VS Review CPR-related skills REVIEW: Review for EXAM #1 (PREPATORY): Ch. 1-9 Next week's agenda / Reminders 2nd Workbook Check (Ch. 7-9) NEXT CLASS; No late work accepted!	Ch. 8 Ch. 9

	<p style="text-align: center;">REMINDER:</p> <p>Next class will be LAST DAY to accept documents to qualify for Sept. clinical</p>	
Sept. 17	<p>ADMIN: Accept any student documents; Complete Uniform Compliance Check</p> <p style="text-align: center;">TURN IN Workbooks (Ch. 7-9) as you come INTO class.....NOT LATER!</p> <p style="text-align: center;">EXAM #1 (PREPATORY) -- Ch. 1-9 (timed: 1 hour 30 min. MAX)</p> <p>LECTURE: Review EXAM #1; Review reading assign. for Thurs (Ch. 10, 11)</p> <p>LAB: DEMO Patient Assessment – Medical & Trauma; Vital Signs Skills TEST & Mech. Aids Skills TESTS.</p> <p style="text-align: center;">PICK UP WORKBOOKS PRIOR TO leaving class</p>	Handouts
Sept. 17 1:00p --	<p style="text-align: center;">EXTENSION of normal class for MANDATORY HOSPITAL CLINICAL TRAINING – if you do not attend, you will not be allowed to go to the clinical sites thus you will fail clinical AND the EMT course. PLUS.... there will be a specific training for certain hospitals that MUST be completed BEFORE clearance. Students who are complete will have <u>TODAY ONLY</u> to have the opportunity to sign up for ER clinicals for the remainder of September.</p>	Handouts
Sept. 19	<p>ADMIN: Accept any student documents; Complete Uniform Compliance Check</p> <p>LECTURE: Managing Patient Airway & Ventilation; Principles of Pharmacology</p> <p>REVIEW: Next week's agenda / Reminders - FINAL FILE DOCUMENTS</p> <p style="text-align: center;">GO TO COMPUTER LAB TO REGISTER FOR EMS TESTING/PLATINUM – Give 1st ONLINE EXTRA CREDIT Assignment -- Profile (due 9/23 – 11:59p)</p> <p>NOTE: <i>Students who complete documentation requirements & have completed Orientation can begin ER clinical rotations TOMORROW-Sept. 20th!</i></p>	Ch. 10 Ch. 11 Handouts
Sept. 24	<p>ADMIN: Accept any Clinical documents; Complete Uniform Compliance Check</p> <p>Accept ALL LAST student documents for files – Student Files NOT COMPLETE by this date subject to be DISMISSED from Program; NO EXCEPTIONS!</p> <p style="text-align: center;">QUIZ #3 -- Ch. 10 & 11 + Skills INFO to date (timed: 20 minutes MAX)</p> <p>LECTURE: Short Review of Quiz #3 Review reading assignment for Thurs (Ch. 12, 13, & 14)</p> <p>LAB: Review Pt. Assessment Skill sheets + DEMO / Practice Assessment Skills; Brief Review of Online Testing Service</p> <p style="text-align: center;">**Clinical Calendars for ER & OB available for OCTOBER**</p> <p style="text-align: center;">REMINDER: NIMS 100/200 Completion Certificates are DUE next class</p>	Handouts
Sept. 26	<p style="text-align: center;">**TURN IN copies of NIMS 100/200 Completion Certificates -- Late work after today will be dropped to ½ credit, but they will still be REQUIRED to complete the course AND they count as a MAJOR EXAM grade!</p> <p>ADMIN: Accept any Clinical Documents; Complete Uniform Compliance Check</p> <p>LECTURE: Shock; Brief Overview of BLS Resuscitation; Medical Overview</p> <p>REVIEW: Next week's reading assignment (Ch. 15) / Reminders</p> <p style="text-align: center;">FIRST EMS TESTING / PLATINUM Quiz #1 (Prepatory)</p>	Ch. 12 Ch. 13 Ch. 14

	<p><i>functional after 12a tonight – will shut down at 12a Monday night!</i></p> <p>3rd Workbook Check (Ch. 10-14) NEXT CLASS; No late work accepted!</p>	
October 1	<p>TURN IN Workbooks (Ch. 10-14) as you come INTO class.....NOT LATER!</p> <p><i>First Platinum ONLINE QUIZ #1 should have been completed</i></p> <p>ADMIN: Accept any Clinical Documents; Complete Uniform Compliance Check</p> <p>QUIZ #4 -- Ch. 12 – 14 (timed: 20 minutes MAX)</p> <p>LECTURE: Short Review of Quiz #4; Respiratory Emergencies Review reading assignment for Thurs (Ch. 16)</p> <p>LAB: AED Review; DEMO / Practice EPI Pen Skill; Practice Patient Assess Skills</p> <p>PICK UP WORKBOOKS PRIOR TO leaving class</p>	Ch. 15
Oct. 1 1:00p --	<p>EXTENSION OF NORMAL CLASS TIME FOR MANDATORY EMS CLINICAL TRAINING – if you do not attend, you will not be allowed to go to the EMS clinical sites thus you will fail clinical AND the EMT course.</p> <p>CLINICAL ASSIGNMENT #1 GIVEN -- DUE in 2 weeks (October 15)</p> <p>Afterwards, calendars for October EMS clinical sites will be available.</p>	HANDOUTS
October 3	<p>ADMIN: Accept any Clinical documents; Complete Uniform Compliance Check</p> <p>LECTURE: Cardiac Emergencies</p> <p>VIDEOS: Lecture-related content</p> <p>LAB: DEMO / Practice Bronchodilators; Continue practice on EPI Pens</p> <p>REVIEW: Next week's agenda / Reminders</p> <p>NOTE: <i>Students whose files are complete & have completed Orientation can begin ER / OB and/or EMS clinical rotations TOMORROW - Oct. 4th!</i></p>	Ch. 16 Handouts
October 8	<p>ADMIN: Accept any Clinical documents; Complete Uniform Compliance Check</p> <p>QUIZ #5 -- Ch. 15 & 16 (timed: 20 minutes MAX)</p> <p>LECTURE: Short Review of Quiz #5 Neurologic Emergencies; Psychiatric Emergencies Review reading assignment for Thurs (Ch. 20 & 21)</p> <p>LAB: Finish Practice Bronchodilator/Nebulizers, EPI Pen Skills.</p>	Ch. 17 Ch. 22
October 10	<p>ADMIN: Accept any Clinical documents; Complete Uniform Compliance Check</p> <p>LECTURE: Immunologic Emergencies; Toxicology</p> <p>LAB: DEMO Poisoning Therapeutics and theories Medical Assessment Scenarios as time allows.</p> <p>REVIEW: Next week's agenda / Reminders (Ch. 18 & 19)</p> <p>2nd Platinum Online EXTRA CREDIT (Prepatory & Airway/Respiratory) available over weekend till 12am Monday night</p> <p>4th Workbook Check (Ch.15-17/20-22) NEXT Class; No late work accepted!</p>	Ch. 20 Ch. 21

October 15	<p>Turn in Workbooks (Ch. 15-17 / 20-22) as you come INTO class...NOT LATER! 2nd Platinum Online EXTRA CREDIT should have been completed</p> <p>ADMIN: Accept any Clinical documents; Complete Uniform Compliance Check</p> <p>QUIZ #6 -- Ch. 17 & 20-22 (timed: 20 minutes MAX)</p> <p>LECTURE: Short Review of Quiz #6 Endocrine & Hematologic Emergencies Review reading assignment for Thurs (Ch. 18)</p> <p>LAB: DEMO/Practice Oral Glucose administration + Glucometer TRAINING; Broncho, Nebulizer, EPI Pen, & Glucometer Skills TESTS.</p> <p>PICK UP WORKBOOKS PRIOR TO leaving class</p>	Ch.19 Handouts
