**Accommodations for Students with Disabilities**

If a student should need special accommodations due to a physical or learning challenge, the student should meet with the Coordinator of Special Populations. Please note students are responsible for providing appropriate documentation of a disability by way of a physical, psychological or educational evaluation or referral from a rehabilitation agency (such as the Texas Rehabilitation Commission). The required documentation should state clearly the need for accommodations and that the disability meets ADA standards. This process must be completed before any accommodations can be arranged. Applications must be made prior to start of each semester to allow for sufficient time for coordination of services. Accommodation services are reviewed every semester upon the request of the student. Current or prospective students who have concerns regarding support services should contact the Coordinator of Special Populations within the College Connection Center or call 903-434-8202.
