*The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.*

**Catalog Course Description (include prerequisites):** Instruction in the utilization of presentation software to produce multimedia presentations. Graphics, text, sound, animation and/or video may be used in presentation development.

Prerequisite: BCIS 1305 - Business Computer Applications

**Required Textbook(s):**

**Microsoft® PowerPoint® Office 365® PowerPoint® 2019: Comprehensive**, Shelly Cashman Series, Susan L. Sebok

**Publisher:** Course Technology, Cengage Learning

**ISBN Number:** 9780357026410

**Recommended Reading(s):**

None

You will not be able to pass this course without the textbook. The book is needed for nearly all of the assignments and is required at the beginning of the course. Not having the textbook (ebook or printed version) is not a valid excuse for late work. Note that this course does not come with an eBook.

Many of my students find it difficult to use an ebook in this class, as it really requires a second device to look at the book while they are creating files on another computer. Also, please note that the NTCC testing center will not allow you to use a second device when taking your exams.

**Student Learning Outcomes:**

1. Use PowerPoint to create presentations, including personal and business topics using text, visual and/or sound elements, and animation/video.
2. Use PowerPoint to create special types of presentations including community events, school events, games, trade shows and other special activities.
3. Use other presentation/publication software programs to create/advertise presentations.
4. Use other outside sources, including Internet searches, YouTube, Smart Phone, etc. to add interest to a presentation slide show.

**SCANS Skills:**

NA

**Lectures & Discussions:**

Classes consist of lab time to complete some of the hands-on assignments, and detailed how-to instructions for some of the hands-on assignments.

**Evaluation/Grading Policy:**

All assignments are created and submitted individually, although students may work side-by-side on two different computers when creating the homework assignments, but not the tests. Grading rubrics will be created for the four major assignments that detail the grading criteria.

Please pay careful attention to the due dates. Late work will be accepted (for only up until 7 days after the session end date, with the exception of session 4) with a 20% late penalty, for all assignments – WITH THE EXCEPTION OF THE exams. Exams cannot be submitted late, and must be taken at a proctored testing center. The exams are currently available and may be taken at any time before the due date. All exams are open-book. This is not a class to fall behind in, please submit work on time.

Assignments submitted a second time after they have been have graded are not accepted – in other words “no re-do’s”, even if the second submission is prior to the due date. It is up to the student to verify that the assignment is correctly submitted before it is graded. This is easy to do. Once the assignment is uploaded to Blackboard, go to the assignment and click the arrow to the right of each file name to open the file(s) that have been submitted. Do not rely on the image displayed in Blackboard, as it is frequently either non-existent or incorrect. This also applies to submitting the wrong file. When a wrong file is submitted, the student will earn a zero grade. Checking submitted files is a good habit to form right after file(s) have been uploaded. If the student discovers a wrong file before it is graded, let the professor know. The professor will remove the student's previous submission so that it can resubmitted. If a wrong file is discovered after 8 pm on the night it is due, send a Blackboard mail message with the correct files attached. Please take note that your professor grades most days of the week. Again, if an assignment is already graded, you CANNOT resubmit it.

This class is using Microsoft Office 365 & 2019 application programs. Do not attempt to complete assignments using an earlier version of these programs, as you will have many difficulties. Also, please do not use a Google Chrome or MAC computer for these assignments. Students will receive an email during week one of this class instructing them on how to download a free version of the software.

Please ask questions, when the student is unsure about something. Your instructor's cell phone number is posted on the Home Page, and is 903-601-1018. The student may also text the instructor if that is the student's preferred way to communicate. NTCC email or Blackboard email may also be used. Phone calls with no voice mail that at least identifies the person calling will not be returned. Students should also identify themselves in each set of text messages. Please make text messages as specific as possible. Texting "I don't understand anything about this assignment" does not provide your professor with enough to help you.

Do not submit the assignment and ask questions in the comments area. The instructor's policy is to grade what is submitted, and rarely allows assignment resubmissions. The time to ask is BEFORE an assignment is submitted.

This course adheres to the NTCC Academic Honesty and Ethics statements discussed below. In addition, if a student submits the work of anyone else they (and if possible) the other person will earn a zero grade on that assignment. If this happens a second time, the student will be dropped immediately from class with a failing grade and a note of academic dishonesty placed on their permanent NTCC file. The enabling student, if possible, will receive a two-letter grade drop in their final class grade.

**Tests/Exams:**

Two online exams - multiple choice, for first and second half of PowerPoint text two hands-on exams - in classroom for face-to-face classes

**Assignments:**

- 24 Chapter hands-on PowerPoint assignments
- 2 proctored PowerPoint exams
- 3 PowerPoint/other software presentation slide shows
- 1 Final PowerPoint/other software presentation slide show

**Other Course Requirements:**

USB flash drive for storing and transporting your work.

BlackBoard will be used for file submission, but you will need to keep a copy of all work in case of error or file corruption.

Microsoft Office 365/2019 software is needed to complete most homework assignments. Other needed software can be downloaded free from the Internet.

**Student Responsibilities/Expectations:**

Students are expected to participate in class on a regular basis. Lack of participation (no submitted assignments or discussion board posts for two weeks) may result in the student being dropped from class or having their grade average reduced. Attempt will be made to contact you before this happens but should an emergency arise, you need to contact your instructor by phone or email should you not be able to meet this requirement. Please see the schedule of classes for the last day to withdraw. Religious Holy Days: please refer to the current Northeast Texas Community College Student Handbook.

**NTCC Academic Honesty Statement:**

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

**Academic Ethics**

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

**ADA Statement:**

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College counselor to obtain a Request for Accommodations form. For more information, please refer to the NTCC Catalog or Student Handbook.

**Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

**Other Course Policies:**

**Late Work Policy:** Late work will be accepted for some assignments, with a 20% penalty. This is clearly identified in Blackboard. Assessments and the exams cannot be submitted late.

**Examination Policy:** Two announced examinations will be given. No make-up exams will be allowed.

**Appeals Policy:** To appeal a grade, send an e-mail to your instructor's e-mail address within two days of receiving the grade. Overdue appeals will not be considered.

**Incomplete Policy:** Students will not be given an incomplete grade in the course without sound reason and documented evidence as described in the Student Handbook. In any case, for a student to receive an incomplete, he or she must be passing and must have completed a significant portion of the course.
