

Foundations of Finite Math - Math 0124.881

Course Syllabus: Summer 2019 (Subject to Change)

Class Meetings: Online (6/10/2019 to 7/11/2019)

“Northeast Texas Community College exists to provide responsible, exemplary learning opportunities.”

Instructor: Dr. Jackie Johnston

Office: MS-120

Phone: 903-434-8305

Email: jjohnston@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	Online	Online	Online	Online	Online	Email-anytime Zoom meeting by appointment.

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

Catalog Course Description (include prerequisites): This course is a learning support to develop the skills and understanding needed to be successful in a first course of finite mathematics for business majors with emphasis on application of modern business practices. Topics include: order of operations, percentages, graphing, mathematical models, probability, and statistical reasoning. Technology and communication will be embedded throughout the course. No college credit. Co-requisite: MATH 1324 Finite Math with TSI Placement

Required Textbook(s): TBA

Publisher: TBA

ISBN Number: TBA

Recommended Reading(s):

None

Student Learning Outcomes:

Upon successful completion of this course, students will:

0124.1 Use appropriate symbolic notation and vocabulary to communicate, interpret, and explain mathematical concepts.

0124.2 Define, represent, and perform operations on real numbers, applying numeric reasoning to investigate and describe quantitative relationships and solve real world problems in a variety of contexts.

0124.3 Use algebraic reasoning to solve problems that require ratios, rates, percentages, and proportions in a variety of contexts using multiple representations.

0124.4 Apply algebraic reasoning to manipulate expressions and equations to solve real world problems.

0124.5 Use graphs, tables, and technology to analyze, interpret, and compare data sets.

0124.6 Construct and use mathematical models in verbal, algebraic, graphical, and tabular form to solve problems from a variety of contexts and to make predictions and decisions.

SCANS Skills:

N/A

Evaluation/Grading Policy:

Satisfactory (CR): MATH 1324 “C” or better

No Credit (NC): MATH 1324 “F, W, or NC”

Other Course Requirements

A calculator is required for this course. Please contact instructor with any questions before purchasing a calculator.

Student Responsibilities/Expectations:

Regular and punctual attendance at all scheduled classes is expected. Attendance is necessary for successful completion of course work.

NTCC Academic Honesty Statement:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

Academic Ethics

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with Kat Belew, Academic Advisor/Coordinator of Special Populations located in the College Connection. She can be reached at 903-434-8264. For more information and to obtain a copy of the Request for Accommodations, please refer to the [Special Populations link](#).

Family Educational Rights And Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

6 Drop Rule: "Students who enrolled in Texas public institutions of higher education as first-time college students during the Fall 2007 term or later are subject to section 51.907 of the Texas Education Code, which states that an institution of higher education may not permit a student to drop (withdraw with a grade of "W") from more than six courses. This six-course limit includes courses that a transfer student has previously dropped at other Texas public institutions of higher education if they fall under the law. Students should be sure they fully understand this drop limit before they drop a course. Please visit the admissions office or counseling/advising center for additional information and assistance."

Other Course Policies:

This is an online class where students are required to access instructional material and graded activities on Blackboard. A typical class will involve general participation by all members in a discussion regarding the mathematical principles and procedures being studied. Some small as well as large group activities will be employed, and students are expected to develop as team members as well as individuals.

Students are always expected to be respectful toward classmates and professor. Proper Netiquette is always expected. Students will be warned then if the behavior continues the student will be removed from the course and must meet with the instructor and Vice President of Student Services before returning to class.

The college's official means of communication is via your campus email address. I will use your campus email address and Blackboard to communicate with you outside of class. Make sure you keep your campus email cleaned out and below the limit so you can receive important messages.

Campus Safety: Northeast Texas Community College (NTCC) is committed to maintaining the safety of the students, faculty, staff, and guests while visiting any of our campuses. See NTCC's website for details and to receive emergency notifications automatically by phone. In the event of an emergency contact NTCC Police at 903-434-8127.
