

Math 1325.083 Business Calculus Online

Course Syllabus: Fall 2018

Class Meetings: No Class Meeting

“Northeast Texas Community College exists to provide responsible, exemplary learning opportunities.”

Instructor: Dr. Jackie Johnston

Office: MS-120

Phone: 903-434-8305

Email: JJohnston@ntcc.edu

Office Hours	Monday	Tuesday	Wednesday	Thursday	Friday	Online
	Online	Online	Online	Online	Online	Everyday

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

Catalog Course Description (include prerequisites): Three credit hours. This course is a basic study of limits, continuity, derivatives, techniques and applications of derivatives, optimization and graphing, integrals, techniques and applications of integrals, and multivariate calculus. Applications in business, economics, and social sciences are emphasized. Prerequisite: College Algebra (MATH 1314) or Finite Math (MATH 1324)

Prerequisite: College Algebra (MATH 1314) or Finite Math (MATH 1324)

Required Textbook(s): Business Calculus (Business Calculus MAT213 Paradise Valley Community College). Available free online as a PDF at <http://www.opentextbookstore.com/buscalc/>. You are not required to buy a hardcopy of the textbook; however you may purchase on via NTCC Bookstore or online at Lulu.com.

Publisher: Lulu.com

ISBN Number: 21775821

Note: The NTCC Bookstore link is at www.ntcc.edu.

***IMPORTANT: YOUR COURSE IS USING EXCLUSIVE ACCESS. THERE IS A DISCOUNTED TEXTBOOK FEE ADDED TO YOUR TUITION TO COVER THE COST OF THE REQUIRED MATERIALS. YOU WILL ACCESS YOUR ACCESS CODE ON BLACKBOARD IN THE ORIENTATION FOLDER ON THE FIRST CLASS DAY.**

Recommended Reading(s): None

Student Learning Outcomes:

Upon successful completion of this course, students will

- 1325.1** Apply calculus to solve business, economics, and social sciences problems.
- 1325.2** Utilize appropriate differentiation techniques to obtain the derivative of various functions including exponential and logarithmic functions.
- 1325.3** Solve application problems involving implicit differentiation and related rates.
- 1325.4** Solve optimization problems with emphasis on business and social sciences applications.
- 1325.5** Determine and utilize appropriate techniques of integration including substitution and integration of parts.
- 1325.6** Extend the pattern of various calculus techniques to functions of two variables to find solutions.

Core Curriculum Purpose and Objectives:

Through the core curriculum, students will gain a foundation of knowledge of human cultures and the physical and natural world; develop principles of personal and social responsibility for living in a diverse world; and advance intellectual and practical skills that are essential for all learning.

Courses in the foundation area of mathematics focus on quantitative literacy in logic, patterns, and relationships. In addition, these courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

College Student Learning Outcomes:Critical Thinking Skills

- CT.1** Students will demonstrate the ability to 1) analyze complex issues, 2) synthesize information, and 3) evaluate the logic, validity, and relevance of data.

Communication Skills

- CS.1** Students will effectively develop, interpret and express ideas through written communication.

Empirical and Quantitative Skills

- EQS.1** Students will manipulate numerical data or observable facts by organizing and converting relevant information into mathematical or empirical form
- EQS.2** Students will analyze numerical data or observable facts by processing information with correct calculations, explicit notations, and appropriate technology.
- EQS.3** Students will draw informed conclusions from numerical data or observable facts that are accurate, complete, and relevant to the investigation.

SCANS Skills:

N/A

Course Outline:

Chapter 11

- 11.1 Limits
- 11.2 One-sided Limits and Limits Involving Infinity
- 11.3 Rates of Change
- 11.4 Tangent Lines and Derivatives
- 11.5 Techniques for Finding Derivatives
- 11.6 Derivatives of Products and Quotients
- 11.7 The Chain Rule
- 11.8 Derivatives of Exponential and Logarithmic Functions
- 11.9 Continuity and Differentiability

Chapter 12

- 12.1 Derivatives and Graphs
- 12.2 The Second Derivative
- 12.3 Optimization Applications
- 12.4 Implicit Differentiation
- 12.5 Related Rates

Chapter 13

- 13.1 Antiderivatives
- 13.2 Integration by Substitution
- 13.3 Area and the Definite Integral
- 13.4 The Fundamental Theorem of Calculus
- 13.5 Applications of Integrals

Chapter 14

- 14.1 Functions of Several Variables
- 14.2 Partial Derivatives

Lectures & Discussions:

This is an online class where students are required to access instructional material and graded activities on Blackboard. A typical class will involve general participation by all members in a discussion regarding the mathematical principles and procedures being studied. Some small as well as large group activities will be employed, and students are expected to develop as team members as well as individuals.

Tests/Exams:

Exam information is located below in the Evaluation/Grading Policy. Dates for the exams will be set in Blackboard. Material covered in each exam is located in the course outline above.

Assignments:

Assignments consist of online homework, quizzes and discussion forum assignments. Assignments are subject to change. Homework will be completed via an online homework manager, LumenOHM. Homework via LumenOHM is graded when submitted except for Show Your Work (SYW) problems. SYW problems will be graded within 72 hours after the due date. Quizzes will be graded when submitted. Discussion forums will be graded 72 hours after the due date.

Evaluation/Grading Policy:

A series of online Blackboard engagement opportunities, discussion forum assignments, quizzes, and homework will be worth 50%. A Midterm exam and Final exam will contribute 50% to the final grade.

Midterm Exam	25%
Homework/Participation Grade	50%
<u>Final Exam</u>	<u>25%</u>
TOTAL	100%

Students are expected to login each day. Make-up exams will not be given unless the student has coordinated with the instructor at least two days prior to the exam. Late work for whatever reason will incur a penalty unless otherwise indicated by the instructor. Any approved makeup will be in conjunction with the final course examination. **The midterm exam and final exam MUST be proctored.** Details will be given in the Blackboard course. If you have any questions or concerns please contact the instructor.

Other Course Requirements

A graphing calculator is required for this course. A TI-83/84 is recommended. Please contact instructor if you have any questions regarding the calculator requirement **BEFORE** purchasing. The TI-84 Silver Edition is used by the instructor. Note: The NTCC Bookstore link is at www.ntcc.edu.

Student Responsibilities/Expectations:

Students are expected to be respectful toward classmates and professor at all times. Proper Netiquette is expected at all times. Students will be warned then if the behavior continues the student will be removed from the course and must meet with the instructor and Vice President of Student Services before returning to class.

NTCC Academic Honesty Statement:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

Academic Ethics

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to request accommodations. An appointment can be made with Shannin Garrett, Academic Advisor/Coordinator of Special Populations located in the College Connection. She can be reached at 903-434-8218. For more information and to obtain a copy of the Request for Accommodations, please refer to the [NTCC website - Special Populations](#).

Family Educational Rights And Privacy Act (Ferpa):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Other Course Policies:

The college's official means of communication is via your campus email address. I will use your campus email address and Blackboard to communicate with you outside of class. Make sure you keep your campus email cleaned out and below the limit so you can receive important messages
