

Calculus I - Math 2413.01

Course Syllabus: Spring 2018

“Northeast Texas Community College exists to provide responsible, exemplary learning opportunities.”

Dr. Leah Reagan, Professor of Mathematics

Office: Humanities Building, 128 B

Phone: 903-434-8290

Email: lreagan@ntcc.edu (email is the fastest way to reach me)

<u>Online Office Hours:</u>	Monday	Tuesday	Wednesday	Thursday	Friday
Professor checks email multiple times daily and will respond promptly.	1:00 - 3:30	9:30 –11:00 1:00 - 3:30	1:00 - 3:30	10:00 - 11:00	As needed

The information contained in this syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

Catalog Course Description (include prerequisites): Calculus I is a standard first course in the calculus. Topics include differentiation of algebraic and trigonometric functions, differentiation formulas, applications of the derivative, mean value theorem, maxima/minima, points of inflection, curve sketching, antiderivatives, definite and indefinite integrals, upper and lower sums, and the fundamental theorem of calculus. Prerequisite: MATH 2412 (Precalculus) or its equivalent.

Required Textbook(s):

Larson/Edwards, Calculus, 11th Edition Binder Text , and WebAssign Passcode:

In the effort to save students money, your course materials are delivered through Exclusive Access. You have already paid for your course materials with your tuition and fees. Below is the required course materials:

1-285-85848-4 LARSON / CALCULUS BINDER TEXT W/WEBASSIGN

To access your course materials, click on the Course Materials Access link within the Start Here folder on Blackboard.

For additional information on Exclusive Access, please access the textbook information provided on the portal (student tab, click on Academics then Textbooks.)

NEW TEXTBOOK INFORMATION – VERY IMPORTANT, MUST READ:

Welcome to MATH 2413.001! This 16 week course will take part in a new program called Exclusive Access, The NTCC Bookstore's new digital course material service. This new service enables the bookstore to offer students instant access to online course materials, like textbooks and class websites, at the **lowest price possible**. This semester your course will be included in a select number of courses taking part in this newly available program. The bookstore has implemented this program to save students as much money as possible to combat the current high prices of course materials.

So what does this mean for you, the student? It means you immediately have access to your digital course materials on the first day of class! To gain access to your content you'll log in to your Blackboard course and follow the instructions in the "Start Here" folder.

Your student account has been charged the bookstore's exclusive low price for the MyMathLab code – The only thing you need to purchase now is the loose-leaf binder textbook in the NTCC bookstore. It is the cheaper version of the hard-back textbook.

If, for some reason, you decide you do not want to purchase these materials from the bookstore, you can opt-out of the Exclusive Access program by going to the RedShelf link in your Blackboard course, clicking the View Course Materials button, scrolling to the bottom of the page to click the grey opt-out button and following the prompts. If you opt-out by the add/drop deadline, you will receive a refund to your student account. Please contact the bookstore with any questions about refunds.

This program is aimed to help students navigate the world of ever-rising textbook prices and offer all students access to the materials at the start of instruction. If you have any questions concerning Exclusive Access, please reach out to the bookstore at ntaylor@ntcc.edu or email help@redshelf.com.

Required Textbook:

Larson/Edwards, Calculus, 11th Edition Binder Text , and WebAssign Passcode:
(Ask for the loose-leaf binder version (cheaper) – pick up in the bookstore). You will need to purchase a 3 ring binder to put the loose-leaf book into.

Recommended Reading(s):

None

Student Learning Outcomes:

Upon successful completion of this course, students will:

2413.1 Determine the limit of a function graphically, numerically, and analytically.

2413.2 Calculate derivatives using the definition of the derivative as the limit of a difference quotient.

2413.3 Calculate derivatives of algebraic, trigonometric, and implicit functions.

2413.4 Apply methods of calculus to graph polynomial, rational, and trigonometric functions.

2413.6 Problem-solve a broad base of application problems involving differentiation including but not limited to Rolle's Theorem and the Mean Value Theorem.

2413.7 Calculate and apply antiderivatives of algebraic and trigonometric functions.

2413.8 Understand the relationship between antiderivative and integral by way of the Fundamental Theorem of Calculus.

SCANS Skills: N/A

Course Outline:

Submission of homework problems will be determined on a section-by-section basis. Changes on individual problem sets may be made in class. Select sections will be given through WebAssign.

COMPREHENSIVE FINAL

Evaluation/Grading Policy:

Three major 100 point examinations, evenly spaced throughout the semester, for a total worth of 45% of the final grade. Homework will be worth 25%. Quizzes will be worth 10% of your final grade. A comprehensive final examination will contribute 20% points to the final grade.

3 Major Exams	45% (READ INFO BELOW)
Homework Grade	25%
Quizzes	10%
Comprehensive Final Exam	<u>20%</u>

TOTAL 100%

Make-up exams will not be given unless the student has coordinated with the instructor at least two days prior to the exam. Late work will incur a penalty of 10 points per day, unless otherwise indicated by the instructor.

Grading System

"A"	90-100%
"B"	80-89%
"C"	70-79%
"D"	60-69%
"F"	< 60%

Other Course Requirements

A graphing calculator is required for this course. TI 84, 89, or Voyage 200.

Student Responsibilities/Expectations:

Regular and punctual attendance at all scheduled classes is expected. Attendance is necessary for successful completion of course work. Excused absences may be permitted at the discretion of the instructor for illness, official college activities, or personal emergencies. The student is responsible for initiating procedures for make-up work. All other missed assignments will not be accepted unless otherwise stated and is completed to the satisfaction of the instructor. Students absent on an exam day must have informed the instructor prior to missing the exam. If the instructor is not informed prior to missing the exam, the exam will not be made up and have a zero placed in the gradebook.

NTCC Academic Honesty Statement:

"Students are expected to complete course work in an honest manner, using their intellects and resources designated as allowable by the course instructor. Students are responsible for addressing questions about allowable resources with the course instructor. NTCC upholds the highest standards of academic integrity. This course will follow the NTCC Academic Honesty policy stated in the Student Handbook."

Academic Ethics

The college expects all students to engage in academic pursuits in a manner that is beyond reproach. Students are expected to maintain complete honesty and integrity in their academic pursuit. Academic dishonesty such as cheating, plagiarism, and collusion is unacceptable and may result in disciplinary action. Refer to the student handbook for more information on this subject.

ADA Statement:

It is the policy of NTCC to provide reasonable accommodations for qualified individuals who are students with disabilities. This College will adhere to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student's responsibility to arrange an appointment with a College counselor to obtain a Request for Accommodations form. For more information, please refer to the NTCC Catalog or Student Handbook.

Family Educational Rights And Privacy Act (FERPA):

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of

student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered "eligible students." In essence, a parent has no legal right to obtain information concerning the child's college records without the written consent of the student. In compliance with FERPA, information classified as "directory information" may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student's name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.

Other Course Policies:

There will be no cell phone usage in the classroom. Students will be warned if using a phone during class. A student will be removed from class if the disruption continues.

The college's official means of communication is via your campus email address. I will use your campus email address, Blackboard, and WebAssign to communicate with you outside of class. Make sure you keep your campus email cleaned out and below the limit so you can receive important messages.
