Team Oriented Participation

Read this Information thoroughly and be prepared to discuss it in your teams.

Most everything that is significant in life is done as a part of a team. Team participation is required in highly functional social systems whether you are in a family setting, work setting, or business settings.

1. There will be class teams. I will assign teams in class. The purpose of team work is to provide several communication links for team members concerning class assignments and class requirements. Class notes will be taken by individual team members concerning lectures and discussions and shared in your team. Class/team participation is required. Team work will also include a Team speaking assignment. More on this later.
2. Every student must have access to a class text (book). There are several quizzes that will require access to the class text for study purposes and taking quizzes and assigned reading.

3. There will be four speeches given for a grade in this class. Begin preparing for these speeches before they are assigned. More on this below.

4. Each student is responsible for checking their email for messages concerning this class. This is our primary mode of communication. If you do not know how to get your email, then you must get a team member to show you how.

5. Team accountability requires that all quizzes by team members be taken by the appropriately assigned dates and times provided in the announcement section of Blackboard. Team members are responsible for communicating the times and dates of assignments to ensure the team individuals are accountable for assignment due dates.

6. Teams are responsible for member’s class attendance and reasons or for class absences. These attendance reports will be emailed to me weekly by designated members. I will compare them with my attendance notes.

7. Some class time will be given to validate and discuss class assignments, assignment due dates, and clarification of class lecture notes, information, and requirements. Students who need class notes will get specific information from the group. So, taking notes in class is essential. I will provide lecture material only once in class. Members needing note taking information will get that information from the team.

**Family Educational Rights and Privacy Act (FERPA):**
The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children’s educational records. These rights transfer to the student when he or she attends a school beyond the high school level. Students to whom the rights have transferred are considered “eligible students.” In essence, a parent has no legal right to obtain information concerning the child’s college records without the written consent of the student. In compliance with FERPA, information classified as “directory information” may be released to the general public without the written consent of the student unless the student makes a request in writing. Directory information is defined as: the student’s name, permanent address and/or local address, telephone listing, dates of attendance, most recent previous education institution attended, other information including major, field of study, degrees, awards received, and participation in officially recognized activities/sports.
